

## PRODUCT RECOGNITION PROGRAM

# SKIN HEALTH PROGRAM (SHP)

Guided by the Canadian Dermatology Association (CDA), our Skin Health Program (SHP) is your roadmap to healthier skin as it recognizes skincare products that meet some simple but important criteria:

- **Fragrance-free or unscented**
- **Gentle on skin to avoid skin irritation**
- **Do not contain common allergens**
- **Do not clog pores**

Products recognized by the Skin Health Program (SHP), launched in 2013, are assessed by a scientific expert panel of Certified Dermatologists, who follow the most recent advancements to help Canadians and their families enjoy the best possible skin care products available.

## PRODUCT RECOGNITION PROGRAM

# SUN PROTECTION PROGRAM (SPP)

Guided by the Canadian Dermatology Association (CDA), the Sun Protection Program (SPP) acknowledges sunscreen products that adhere to essential criteria. It serves as your guide to effective sun protection, ensuring that the recognized products align with key standards:

- **SPF sun protection 30 and above**
- **Minimally perfumed or non perfumed**
- **Gentle on skin to avoid skin irritation**
- **Do not clog pores**

Products recognized by the Sun Protection Program (SPP), launched in 1989, are assessed by a scientific expert panel of Certified Dermatologists to ensure they have at least an SPF 30 or above, and a minimal irritation potential to ensure adequate sun protection for Canadians.
